SUMMARY

Detail-oriented **Computer Systems** graduate with a strong foundation in IT support, hardware troubleshooting, basic networking, database management, and web application development. Proficient in configuring Odoo modules, executing SQL queries, and maintaining IT infrastructure. Eager to continuously learn and expand technical skills in an **IT Support / Junior Systems Developer** role.

TECHNICAL SKILLS (BEGINNER / ENTRY-LEVEL)

Hardware & Networking (Basic): Computer Maintenance, Network Troubleshooting, Cisco Packet Tracer, Basic TCP/IP, LAN Configuration

Databases & Systems (Beginner): MySQL, Relational Database Management (RDBMS), SQL Querying, XAMPP, Odoo 16 Configuration

Programming & Tools (Foundational): Python (Pandas, Matplotlib), PHP, HTML5, CSS3, Bootstrap, XML, VS Code, Google Colab, Overleaf

Soft Skills & Competencies: Technical Problem Solving, IT Documentation, Analytical Thinking, Communication, Continuous Learning, Teamwork

PROJECT & ACADEMIC EXPERIENCE

IT Systems & Network Developer (Project-Based)

Jakarta, Indonesia

Independent / University Academic Projects

2023 – Present

- **Student Attendance Web Application:** Developed a web-based attendance system using PHP, MySQL, HTML, CSS, and Bootstrap, eliminating paper-based tracking errors and streamlining administrative workflows.
- **Odoo 16 HRMS Module Development:** Customized HR management modules using Python and XML to automate workflow processes, configuring custom data models, views, and actions.
- **Database Design & Management:** Designed and managed relational MySQL databases using XAMPP, writing complex SQL queries and JOIN operations to optimize data retrieval.
- **Computer Network Simulation:** Simulated network topologies using Cisco Packet Tracer to analyze routing protocols and troubleshoot LAN connectivity issues.
- **Data Analysis & Visualization:** Processed environmental datasets using Python (Pandas, Matplotlib) to analyze trends and generated technical reports for documentation.

EDUCATION

Bachelor of Science in Computer Systems (S.Kom)

Jakarta, Indonesia

Universitas Bung Karno

Graduated

Relevant Coursework: Computer Installation & Maintenance, Computer Organization & Architecture, Data Communications, Database Programming & Design, Object-Oriented Modeling.
